OBJECTIVE

Computer Science undergraduate with hands-on internship experience in Data Analytics, Web Development, and UI/UX Design. Skilled in Python, SQL, Excel, and Power BI, with strong analytical, problem-solving, and communication abilities. Passionate about learning new technologies, solving real-world problems, and turning data into meaningful insights. Looking for an opportunity to contribute my skills, gain industry experience, and grow in a collaborative and professional environment.

SKILLS

Programming Languages: Python, SQL
Core Computer Science: Object-Oriented Programming (OOP), DBMS, DSA
Data Analytics: Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development
Web Technologies: HTML, CSS, JavaScript
Software Development: SDLC, REST APIs
UI/UX Design: Figma, Wireframing, Prototyping
Tools & Platforms: Microsoft Excel, Power BI, Jupyter Notebook, Git, GitHub, VS Code
Soft Skills: Analytical Thinking, Problem Solving, Communication, Documentation, Presentation Skills, Team Collaboration, Adaptability

EDUCATION

B.Tech in Computer Science Engineering, 2023 - 2027
Poornima Institute of Engineering & Technology, Jaipur (Raj.)
CGPA (SEM 1-5): 9.36/10

Higher Secondary Education, 2021 - 2023
Maa Bharti Sr. Secondary School, Kota (Raj.)

EXPERIENCE

Data Analytics Intern – CodeSpazio Solutions Pvt. Ltd. June 2026

- Analyzed and visualized data to generate actionable insights and support data-driven decision-making.

UI/UX Developer Intern – Euonus IT Pvt. Ltd. July 2025

- Designed user-friendly wireframes and prototypes to enhance user experience and interface usability.

Frontend Developer Intern – Vilsa Technologies Pvt. Ltd. July 2024

- Developed responsive and interactive web interfaces using modern front-end technologies.

PROJECTS

LeetCode Profile Analyzer

- Created an interactive coding profile analyzer that provides comprehensive performance insights and progress tracking.
- Included profile comparison, skill analysis, and interview readiness evaluation to support continuous improvement.

Sales Performance Analysis Dashboard

- Built an interactive dashboard to analyze sales performance, trends, and key business metrics.
- Generated meaningful insights to support data-driven decision-making.

ResumeX AI

- Developed an AI-powered platform to analyze resumes and evaluate ATS compatibility.
- Provided personalized recommendations to improve resume quality and job readiness.

CERTIFICATIONS

- Google Cloud Career Launchpad – Data Analytics Track
- Tata|Forage – GenAI Powered Data Analytics Job Simulation
- NPTEL – Fundamentals of Object-Oriented Programming.
- Microsoft – GitHub Copilot Fundamentals.
